Department of Computer Applications (MCA)  
Meeting with the BOARD OF STUDIES

The Board of Studies of the Department of Computer Applications met on 10<sup>th</sup> February 2016 at 2 p.m. to assess the proposed syllabus for the subjects offered from first to fifth semesters. The syllabus for each of the subjects was presented to seek the approval of the members of the board.

Dr. Anandhakumar, University Nominee, has gone through the structure of MCA curriculum and each individual subject. He suggested us to shift some subjects from the semesters in which it is offered, now, to different semesters to maintain the order of sequence. Ms. Mary Praveena, Industrial Expert told us to include Industrial Practice in the curriculum and through this to arrange lecture on latest computer science topics. Alumni of the department stressed the need for offering Web Technology as a subject to help students to take up their main project. Dr. Doreen, Subject Expert offered her suggestions to strengthen the syllabus. The members had fruitful discussion about the curriculum. The changes were made by incorporating their suggestions and on the basis of the following feedback received from Alumni, Parents, Faculty, Industrial Experts and the Employers.

Alumni            1. Offer a course on Software Project management  
                     2. Offer a course on Cloud Computing

Parents           1. Offer good number of Elective Courses

Faculty           1. Algorithm concepts to be included in Data Structures and  
                     Algorithms course  
                     2. Courses on Resource Management Techniques and System  
                     Software shall be included, as they are important for NET exam.

Industrial Experts:

1. Emerging Trends in Software Testing are to be taught
2. Open Source Tools are to be included

Employers:    1. Offer a Course on Mobile Computing  
                     2. Offer two papers on essential and advanced .NET Technologies

List of members present for the meeting is enclosed.

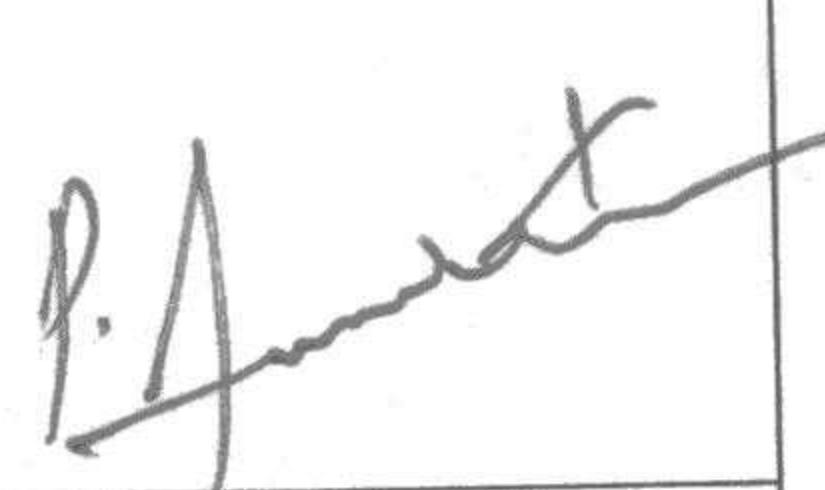

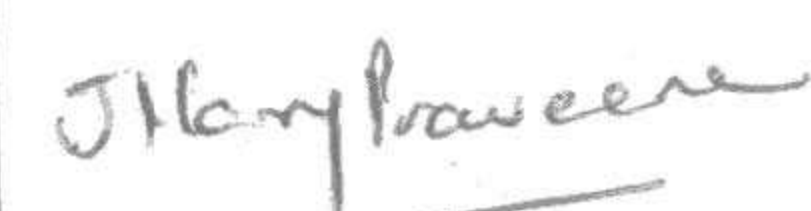

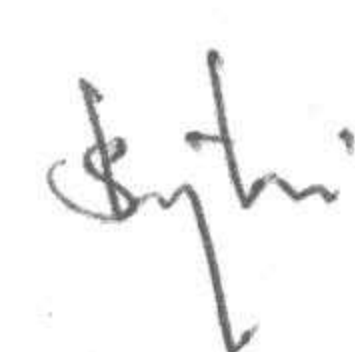

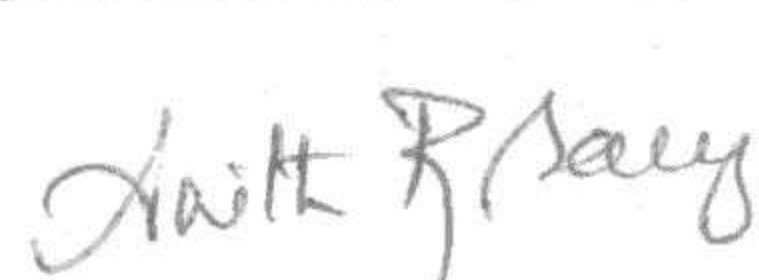

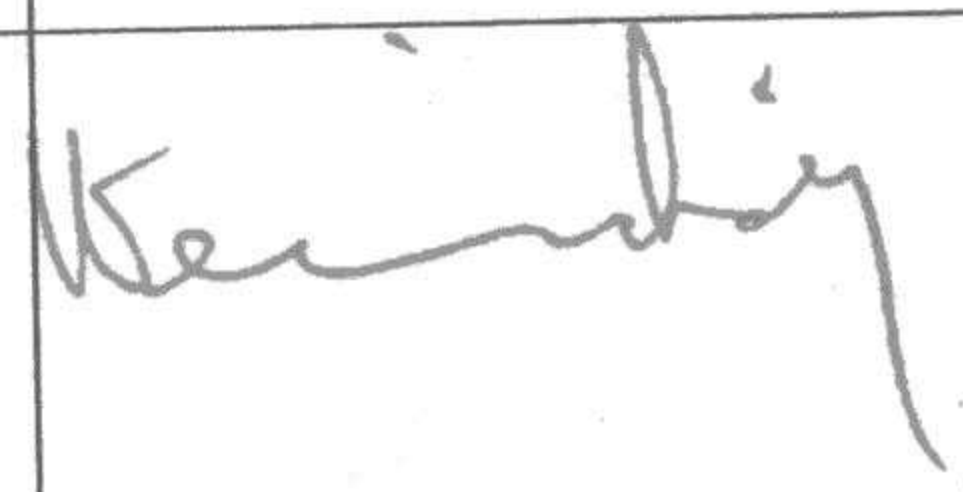

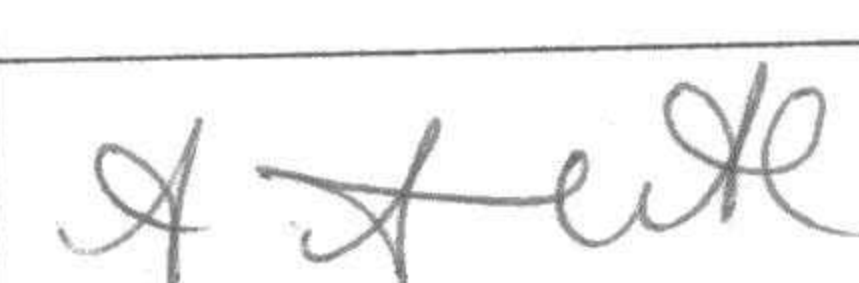

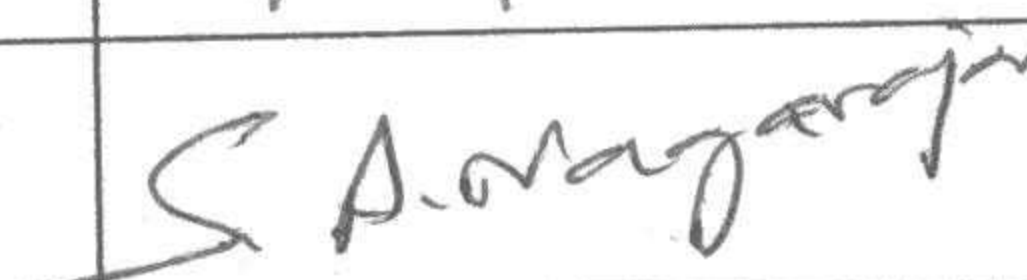

May I have the honor of presenting the final draft of the syllabus for approval by the members of the Academic Council.
