AZ 2104	Animal diversity	NEW	100	New paper covers basics of animal taxonomy, classification and diversity with details on systematic position and habitat specific diversity.
AZ 2105	Animal diversity Lab course	NEW	100	New paper detailing structural organization of type study from all animal phyla.
SEMESTER III				
AZ 3508	Animal Physiology and Biochemistry	OLD	30	Major portion retained as such with revision of all units and updating Reference Books, Text Books and web resources.
AZ 3509	Animal Physiology & Biochemistry Lab course	OLD	30	Major portion retained as such with revision of all units and updating Reference Books, Text Books and web resources.
AZ 3510	Developmental Biology	NEW	100	New paper focuses on embryological features of animals providing details on organogenesis and development of adaptive features.
AZ 3301	Clinical Techniques	NEW	100	New paper focuses on tools and techniques for clinical diagnosis detailing diseases spread through vectors their prognosis, diagnosis and treatment.
AZ 3200	Agricultural Entomology	NEW	100	New paper providing details on pest causing insects of pulses, seeds, stored grains etc., with a detailed account on their control measures.
AZ 3201	Agricultural Entomology Lab course	NEW	100	New paper provides hands on experience on collection and preservation of insects that pose serious threat to agriculture.
