

4.2.5 Availability of remote access to e-resources of the library.

Details regarding our Subscribed E-Resources and remote access

EBSCO Database initially was only IP based access (anywhere within campus – without password), but now (from 2018-September) the registered users can access the EBSCO database from outside (through Individual Password).

UGC N-List Database can be accessed from anywhere (inside or outside campus) for the registered users (password access supported by UGC N-List).

MAGZTER e-Magazines can be accessed from anywhere (inside or outside campus) through individual registration. It can be accessed through mobile also through Magzter app.

Common factor for all the three subscribed e-database is the users should have registered through Central Library. Existing staff and students alone can access the subscribed database. Since the campus is WI-Fi enabled, access is more user friendly.

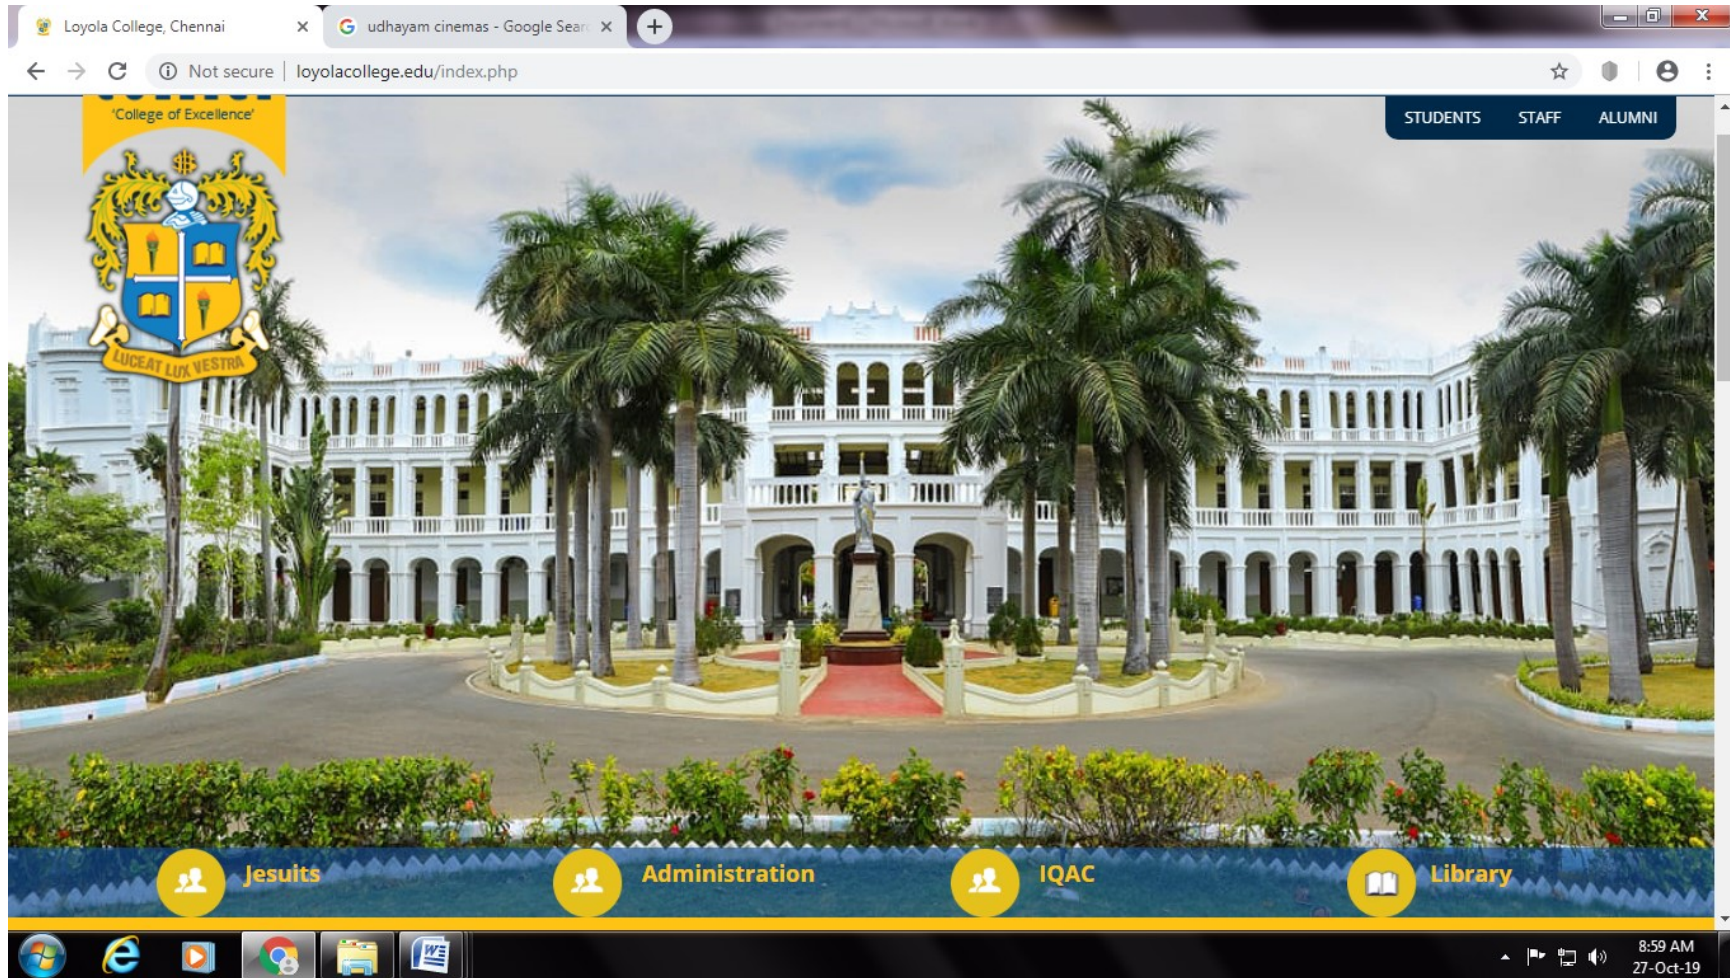

Snapshot of our subscribed Databases is given in the below pages. Specific Page Number of the snapshot is given in the below Table.
