Number of Participants : 18**

Loyola College . Chennai

Department of Service Learning (Outreach)

Commerce

Department (2nd Year B.Com. A section Students)

Venue : Nambikkai Nagar

Date : 23rd July 2018

The students spread the awareness about the Health call centre service which is being run by the Tamil Nadu Government. Nurses, Health Advisory staff, Medical officers and Doctors offer specialized advice in the call centre. The number 104 is a toll free number and the caller is charged only when the call is transferred to a few departments. The students were divided into many small groups and each group was given a hand out which contained the information about the call centre service. The primary objective of the helpline is to provide the caller with the immediate home remedies for most ailments. The call centre gives Information about Communicable as well as non communicable diseases will also be provided. If there are a few people in an area who are sick (due to a communicable disease) a health camp can be organized to prevent further infections and to avoid spreading of a contagious disease. Callers from any part of the State would be directed to the nearest healthcare (Govt. or Private Hospital) with requisite facilities to treat ailments or injuries.

The different group of students tried to spread the information to most of the families in Nambikkai Nagar. They informed the people that they can call this number to register complaints regarding Non availability of doctors, staff, Medicines/Injections, Non availability of beds and any other Grievances will be brought to the notice of the senior Government officials, which will enable the top decision makers to make timely interventions. The call center has expert counselors for Suicidal prevention counseling, Counseling for depression, stress or any other issues. Counselling for Drug and Alcohol addicts and the treatment options available for Alcohol and drug addicts is also provided in the call centre. Information about Cancer, Heart attack, Diabetes and blood pressure will be provided and any questions related to hospitalization/medication will be provided and second opinion of a doctor as to whether surgery is required (If the first doctor

7. Drawing Competition – 14-08-2018

No of participants : 15

The education team of Department of Statistics organized a Independence Day celebration on 14th of August, 2018 in Chettithottam, Saidapet for school children under the guidance of Prof. Rathna from the Department of Service Learning. The students gathered at the venue at 4.30 PM. To highlight the importance of the occasion, each student was made to wear a national flag and the National anthem was sung. A drawing competition was conducted for the children. The students were divided into three categories on basis of their classes. The students of class L.K.G to 1 belonging to category 1 were given colouring sheets. Students belonging to category 2, studying classes 2 to 7, were asked to draw on any theme. Students belonging to category 3, were asked to draw on the theme-"INDEPENDENT INDIA". Each student was given drawing sheets. The event was conducted for one hour. To encourage the budding artists each student was given complementary prize of a crayon set and a pencil. To encourage the exceptional artists among them, each student from one category was given a special prize of a stationary kit and an exam pad. After the conclusion of the event, refreshments were given (Juice).

8. Quiz and Public Speaking competitions for children

Number of participants : 36

Loyola College , Chennai
Department of Service Learning (Outreach)
(2nd Year B.Sc Plant Biology and B.Voc. Digital Journalism)

Venue : Transport Line
Date : 14rd August 2018

The second year UG Students of Plant Biology Department and Kaushal Kendra conducted quiz and public speaking competitions for the children living in Transport Line, Goyathoppu on 14th August 2018. Some of the questions asked in the quiz competition were related to our

Freedom fighters and our National Leaders who had fought for our Independence. The children who answered correctly were given a bar of chocolate or a biscuit packet as a prize and hence all the children participated with eagerness to get the chocolate.

Then the children who gave the wrong answers were told the correct answers to the questions. The answers for the difficult and unanswered questions were given to the children and these questions were repeated again and the children who gave the correct answers to these same questions were also given the chocolates. Most of the children who gave the wrong answers the first time made sure that they gave the correct answer the second time. Then the students conducted a public speaking competition for the children and all the children were encouraged to speak a few sentences in English or Tamil. The children made a few mistakes in English and the students and the Faculty corrected the mistakes made by the children and made them speak the same corrected sentences in English. As the children were encouraged to speak in Public, many of the children who were shy initially came forward to speak after seeing the other children. All the children who participated in the competitions were given chocolates as a consolation prize and they enjoyed the day.

9. NILAVAMBU KASAYAM DISTRIBUTION Number of participants : 54

The Students belonging to the Department of History (BA Second Year- shift-II students) distributed and explain to the people about the importance of Taking Nilavembu Kasayam, as it is part of their outreach. Before that they taken survey on Dengue fever affected people by last year. According to that they arranged Nilavembu Kasayam to prevention measure.

Nilavembu Kasayam is one of the efficient medicines in fighting against disease causing bacteria and viruses, especially against disease causing organisms which cause Dengue and Malaria. The program was organized on 17-08-2018 in Anna Nagar, Gothamedu. The health and sanitation team members bought the Nilavembu Kasayam powder and gave it to the Amma Unavagam staffs who were working at Saidapet and they prepared the kasayam which was later distributed to the people. Once the Kasayam was prepared it was distributed to the people in the outreach intervention areas. (especially Balwadi Children were drunk Kasayam) Local youth members also join hands with our students to distribute Kasayam. The Nilavembu Kasayam drink was distributed to atleast 200 people in the intervention areas and the people thanked the students for taking such an initiative. Students also very happy to worked as a team to prevent Dengue fever for the slums people.

21. First-aid Demo on Cardiac arrest

Number of participating students: 22

Our first aid demo was done on Monday dated (27/08/2018) 9.00 a.m. our topic was first aid for a victim who is suffering from a cardiac arrest. We were three in number representing

health & sanitation team. Later we went on explaining how cardiac attack happens and what are the important immediate measures needed to be taken in order to save a life. We started with a victim falling due to unremitting pain felt in his chest who was immediately first aided by a passerby. The passer by made it clear that he wanted no one to surround the victim so that the victim feels free to respiration and he clearly insisted the to call for a help. He then continued with removing his shirt buttons to still more make him feel free. Later he checked the pulse and the breathing rate once he noticed that the rates were drastically dropping down he went on with **CARDIO PULMONARY RESUSCITATION**. The passer by placed his hands locked one above the other and pressed the victims

27. Health Awareness for Senior Citizens
Number of participants : 23

Lovola College , Chennai

Department of Service Learning (Outreach)

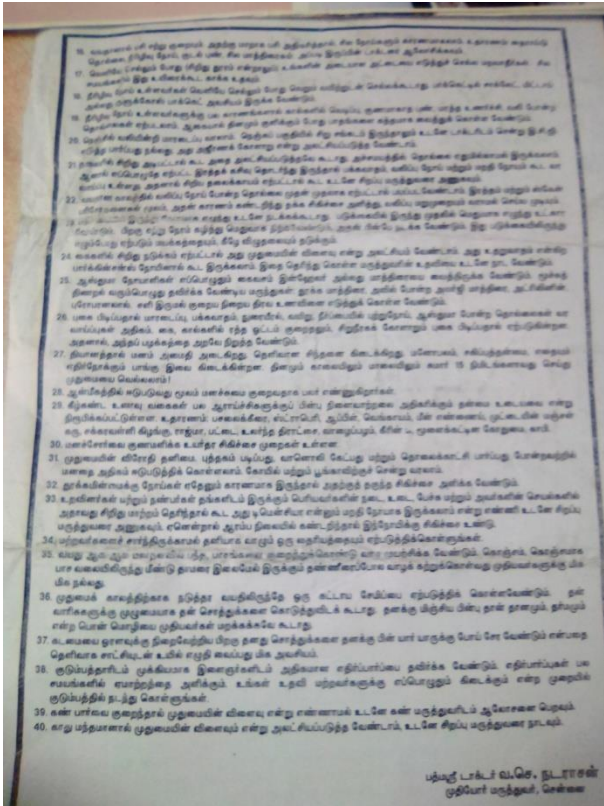

Comme rce De partme nt (2nd Ye ar B.Com A se ction Students)

Venue : Nambikkai Nagar

Dates : 31st August 2018

The second year B. Com A section students spoke about Health related information to the Senior citizens of Mullama Nagar on 31st August 2018. They made the elderly people aware about the important aspects related to health things which they to take into consideration. The students were given a handout containing 40 points which was prepared by Dr. V. K. Natarajan. Dr. V. K. Natrajan was a specialist in dealing with senior citizens and he is the recipient of the Padmashree award. They spoke to the senior citizens about the importance of taking medical tests,

importance of maintaining the prescription chits and noting down the medicines which cause allergies/harm to their bodies, taking medicines without the consent of the doctor(on the advice of the pharmacist), significance of different forms and ways of treating diseases, quantity of food to be consumed at each meal. The students also spoke about the symptoms associated with heart attack, diabetes, thyroid disorders, stroke, Epilepsy, schizophrenia, Dementia and Alzheimer's disease. The students made the people understand the importance of moderate physical exercise and the necessity to manage their weight as obesity can cause many diseases. They also made them understand how stress can affect them. The students told the elderly men that frequent smoking and drinking beyond the age of sixty can severely affect their bodies and they told them to meditate and not be too worried about their problems. They also told them that they should start saving some money every month as these days they cannot expect their children or grand children to take care of them when they become too old. The elderly people listened patiently as the students spoke about these facts to almost all of the senior people in Nambikkai Nagar.

28. Awareness programme on carry bag and plastic containers for hot food

Number of participants: 17

The students of B.Com-B section organized the plastic awareness programme at Dr.Thomas road-I. The Health and Sanitation team has organised the programme. A meeting with the local elders was organised on 1st of September 2018 to spread awareness about the use and the harmfulness of plastics on the human health, animal and other living organism's health and the environment as a whole. This event was organised and done in a successful way to make the elders aware about it and they can spread this awareness to their children and we can get a change of attitude towards waste littering in the area. A total of 30 women turned up and they listened to this with interest and gave a promise that they will give their best to restrict plastic usage and also promote cloth bags in their locality.

31. PHYSIOTHERAPY CAMP FOR THE ELDERERS

No of participants : 16

BY DEPARTMENT OF COMPUTER SCIENCE Chief Guest: Mr. Arumugam

Physiotherapist : Miss. AnithaPriyadharshini

Venue: Dr.Santhosh Nagar

Date: 27/08/2018-30/08/2018

Timing:10:30-12:00P.M

Supported Organisation: HelpAge India

Help Age India:

Help Age India is a leading charity platform in India working with and for disadvantaged elderly for more than 4 decades. Help age India came into being in 1978 with Cecil Jackson Cole, Founder of

Help Age International U.K, As its first President. Around this time two other men figured prominently in the HelpAge India story-John F.Pearson and Samson Daniel.

On 27/08/2018 the students mobilized around 25 elders and registered about their illness with the help of Mr.Arumugam. With the help of Miss.Anitha Priyadharshini physiotherapist the students created the awareness about the beneficial of Physiotherapy camp.

On 28/08/2018 , 29/08/2018 & 30/08/2018

Every day the students arranged the hall and organized the beneficiaries. The Physiotherapist taught exercise to the elders and did physiotherapy treatment with machine. Elders were very happily did the exercise.

Conclusion:

The end of the day the students gave their feedback that “As we spent these four days with elders, we learnt one thing, without them we are nothing. From now on, we support our senior citizen wholeheartedly”. 8 students have supported and executed the event.

33. Children's Quiz Event Report

No of participants : 14

Introduction:

A quiz competition was conducted in order to celebrate Teachers Day . As it was our second event we managed to learn from our mistakes and conducted the event in a better way. Our first event was a sports oriented one so we decided to do something more intellect based, which would encourage the children to become more interested to learn new things. We wanted this event to be a precursor to our new method of teaching involving quizzes, facts etc. The event was conducted on 5th September 2018, in the community hall of Samiyaar Thottam. It was conducted by Education Team for the students of the evening tuition

Preparation:

As it was a quiz competition we had to prepare the questions beforehand, choosing the questions carefully for the students. We informed as many students as possible through the evening tuitions and made them inform others too. We gathered all the students in the hall at 4' O clock.

Actual event in detail:

The quiz consisted of three sections – General Knowledge, Science and Current Affairs; simple enough for the students but at the same time challenging them. We distributed prizes equally among all students to prevent jealousy and ill feeling.

Output of the event:

We found that this event resulted in an increase in the students enthusiasm to come regularly for tuitions. They became more acquainted with us and with each other. The event ultimately promoted the relationship between us and the students.

15 students participated in the event and the prizes were given equally to all the 15 students,

5

Our learning:

This event enabled the team to have a better understanding of how to manage children and to conduct events for them, without any creating rift between them or the team. The team became acutely aware of the difficulty of the teaching profession, in managing students during the event. It made us overall more empathetic towards the children and served as motivation for conducting such events in the future.

Challenge:

We found it challenging to introduce the students to the quiz format as they had not been familiar to it before. Also it was difficult for us to manage the big group of students, who kept making noise, and we had to quieten them, without getting angry or using any harsh words. Even though there were first place and second place we had to give prizes equally to the students to prevent arguments among them.

Conducted by the Education Team of English Department: Jasper, Melvin, Sumith, Bhagavathi, Sting, Nixon, Praveen, Anleo, Prabin, John Bosco, Aaron, Isaac

34. Financial Assistance to the persons with different health issues

Number of participants: 15

Health, Sanitation and Environment team members of BBA.A did a survey in the area. While they were visiting the huts, they came to know that there were three persons who were in need of financial support.

Mrs. Rajeshwari aged 52 is a widow. She is a domestic worker and earns Rs.3000 per month. While she was cleaning the toilet in the house where she works, she fell down and got fractured in the right leg in the 14th July 2018. She went to the hospital and got treated. She was given a slip for the tablets which were unavailable in the hospital. Students met the woman and purchased the tablets twice and gave her 10 kilo grams of rice. She was also given counselling and now she slowly walks after 3 months.

Miss. valli aged 43 is a differently abled and a heart patient. She is a spinster. Her mother is a widow and a domestic worker. She lives in a rented hut. The amount which comes in is not adequate to manage the family. She told that she has to go for heart check - up. She was in need of Rs.7000. Students of Health, Sanitation and Environment team collected Rs.3000 and supported her. She was very grateful for the support received. She also promised that she would use the amount only for the same purpose.

Mr. Senthilkumar aged 25 works as a driver. He met with an accident and got his right hand fractured. He went to the hospital and had PuthurKattu which is very prominent. He came and told the team that he has never approached anyone for untying the bandage. He pleaded to help him with Rs.1500. The team discussed the issue with the staff from the department of Service Learning and finally decided to help him with Rs.800. Prof.K.A.S.Melson told him that he need not repay the amount but he could help someone after the full recovery. All these supports were done on 8th September 2018. 15 students took the initiative in this activity.

35. Community programme on anti-alcoholism at South Boag road

Number of participants : 20

The students of MA History organized a community programme on 14th September 2018 at South Boag road slum. They were placed at South Boag road slum for their urban intervention programme. They visited the locality to know more about the urban poor and their problems. Based on the interaction with community people, they found out some of the social issues. The students focused on women empowerment and alcoholic issues. The students performed skits to create awareness on overcoming alcohol addiction and women empowerment activities. There were nearly 40 members who attended the program. The community people were invited and they expressed their joy through tears and claps. As most of the women in the slum are facing harassment by husband due to alcoholic addiction. The program had ended with the distribution of snacks and tea for the public. Altogether it was a great experience to work with the society and know them much deeper. The program gave a clear-cut view for the society for a better future.

37. Job Opportunities For Women

Number of participants : 10

The students of Mathematics B-Section Shift – II, Organized job opportunity programme for the un-employed woman on 15.09.2018 in our out rich intervention area. The students invited a chief guest from domestic workers moment. The chief guest Spoke about the need of ours for the development of woman to earn money for there a self-confidence. There were more number of women participated and given their name for tailoring training. The team of woman empowerment of Loyola College organized In this event.

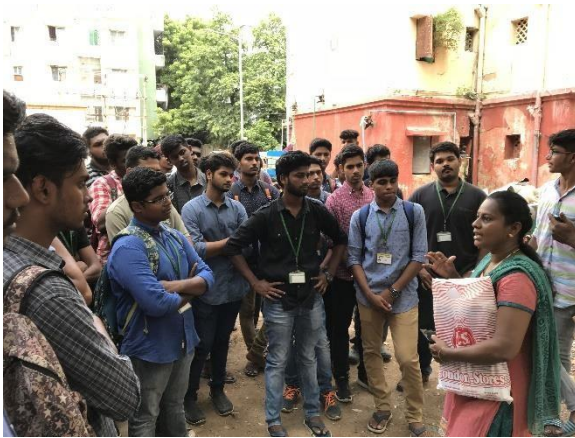

Woman's were very happy and appreciated Loyola College Students Initiative to conductive programme. Vote of thanks was given by Thomas team of woman empowerment.

38. Orientation on Prevention of Tuberculosis disease at Dr.Thomas road

Number of participants :65

The Chennai Corporation conducted campaign about eradication of Tuberculosis in all 15 zones. As part of that, Mrs. Ramya and their team members from Zone-IX conducted campaign on 24th September,2019 at Dr.Thomas road slum. Firstly, they explained to the students of B.Com-B about how this disease spreads, how it can be controlled, prevention measures and treatment. The students also asked about the treatment procedure. After getting an input from Health officer- Zone-IX, students received handbills from health officer and explained to community members about this disease.

45. Quiz and Public Speaking competitions for children

Number of participants 21

Loyola College , Chennai

Department of Service Learning (Outreach)

Commerce Department (2nd Year B.A. Economics Students)

Venue : Nambikkai Nagar

Date : 25th September 2018

Event : Quiz and Public Speaking competitions for children

The second year UG Students of Commerce Department conducted quiz and public speaking competitions for the children of Nambikkai Nagar on 25th September 2018.. The competition was conducted to encourage the children to increase their general knowledge and to make them develop interest towards improving their English speaking skills. The children who answered correctly were given a bar of chocolate or a biscuit packet as a prize and hence all the children participated with eagerness as everyone was given something.

Some of the questions were not answered by anybody and hence the children were told the answers to these questions. The children were told to understand and memorize the answers to these questions and they were told that these questions would be repeated again. The children who gave the correct answers to these questions which were asked after some time were also given the prize. Most of the children who gave the wrong answers the first time made sure that they gave the correct answer the second time. Then the students conducted a public speaking competition for the children and all the children were encouraged to speak a few sentences in English or Tamil. The children made a few mistakes in English and the students and the Faculty corrected the mistakes made by the children and made them speak the same corrected sentences in English. As the children were encouraged to speak in Public, many of the children who were shy initially came forward to speak after seeing the other children. The children enjoyed the day and the students were also happy after seeing the enthusiasm shown by the children.

46. Drawing Competition conducted at Dr.Thomas road-II

Number of participants : 14

Under the guidance of Mr.S.AntonySamy the students of B.COM Corporate Secretaryship

'C'(Shift II) conducted a drawing competition on Thursday, 28th September 2018 in South

Boag road slum, Teynampet to bring out the creativity of the children.

The event was conducted with the motive to bring out the talents of the children and encourage them to continue their schooling. More than 40 children participated in the competition and highlighted their talents in creative thinking and artworks. The event was started by 9:30 am.The drawing sheets, pencils and erasers were provided by students. They were given a time period of 1 hour to complete the drawings. The competition came to an at 10:30 a.m. and the prizes were distributed by 10:45 a.m. . The prizes were given to all who participated. The prize was a pouch which conataied a pencil, a pen, a sharpener, an eraser, a scale and a set of crayons . Refreshments were provided to all.

At the end, the students sang songs relating to how important it is to go to school followed by a motivational speech by the professor in charge. 11 students were responsible for the entire event.

47. BMM-Animation -Drawing competition
Number of participants : 17

The students of II years BMM-Animation organised a competition for children at South Boag road on 28/09/2018. The programme was initiated by the youth development team from BMM and animation. The objective of the programme was to bring out the talents of children and motivate them to go school continually. The students of Animation decided to conduct a drawing competition to bring out the artists in kids.

Students were already informed about the competition a week before. They were expecting around 30 kids but it was surprising to see that around 45 kids turned up on that day of the competition.

The competition started around 9 am in the morning and students distributed the drawing sheets and provided the kids with materials to draw, the completion went on till 10:20 am. After that, the students concluded the competition and selected the winners. The students gave three winners the prizes and they also gave all the participants with consolation prizes. The students provided the refreshments. After the prize distribution, a few students spoke to the kids about drawing and told them to develop their skills which

will help them in later part of life.

48. Awareness Programme on anti – Alcoholism

Number of participants : 21

The students of MSc Medical Lab Technology students were placed at Dr.Thoms road for the urban intervention programme. As part of the intervention, the students have organized the

Community program at Dr.Thomas road slum on 28/09/2018. The students invited community people and conducted a few competitions for the community people. Dr.Carol, Assistant, Staff in-charge, Department of MLT participated in the community programme.

The programme was started by invoking the god's blessings with a prayer song. The welcome address was delivered by Sowmya and Statham Ussain. A small skit was enacted by the students of MLT about social issues in the community. They have created awareness on health and measures for overcoming alcoholic addiction. At the end of the event, the students sang an awareness song about nature and the essentiality of preserving it. The students distributed the prizes for the winners.

51. Child Labour Awareness Campaign Report

No of participants: 60

Saidapet : The Child Labour Awareness Campaign was an event conducted by the 2nd year 'Youth' outreach team of the 1st shift, English department of Loyola College. The event was held at Samiyar Thottam in Saidapet on 28th September 2018. This event was organised for all children, youth, and elders of Samiyar Thottam. The event was commissioned by Prof. Ratna of the outreach department and Prof. Kannan of the English department of Loyola College.

The event started off with a rally organised by all the students. Each student was equipped with pluckards and banners penned with slogans criticising 'Child labour'. The rally started from the beginning of Samiyar Thottam and went on till the last corner of the street and finally halted at the community hall of the place. Throughout the rally, the students were inviting all members of the community to witness their program and also were calling out slogans with great enthusiasm.

After arriving at the community hall, all children and elders were seated comfortably and the chief guests were the leaders of the Samiyar Thottam community. A small introduction about the chief guests were given and Mrs. Ratna and Dr. Kannan felicitated the chief guests with a shawl. Then began the main event which was a play demonstrated by the youth team members with the theme of abolishing Child Labour.

The play depicted a valuable moral and life lesson and was enjoyed by all children and elders alike. Finally the program concluded on a happy note and all were given refreshments at the end.

57. B.Com-B- Competition for the School students

Number of participants : 19

Organized by School teaching team and youth development team

The students of B.com -B organized an event for the school going students in order to encourage them to be regular to their school and to motivate them to concentrate on studies. LEARNING: This Awareness program me was indeed a very useful for the community people as well as to our Students. We learned the way of conducting an event in a proper way and learned to Interact with the people in a proper way.

OUTCOME: Almost 25-30 People joined us in our awareness program and were benefited by the knowledge given by us.They were very interested in the quiz programme and gave their good feedback.

CHALLENGES: The biggest challenge was to gather the people for our programme ,indeed a very hard one done exactly right y our team mates.

68. Drug addiction awareness Programme at MK Radha nagar 2018 - 12/10/2018

Number of participants: 44

MK. Radha nagar is located near Teynampet Chennai, Tamilnadu. Slum colony it has many electronic machines and equipments such as ac, TV, fridge. There are almost all digital equipments that are needed for today's world even in slum colonies. There were almost 200 families living in that particular area. all the youngsters are being educated in that particular area. What lacks in that particular locality is that clean and neatness around the surroundings. Even there are many temples located in that particular area and many rituals happen, we could find people not protecting the area in terms of neatness and cleanliness. Government initiatives such as swacha bharath have not been successfully initiated in these places. Literacy rate is moderate in this area. Drunkards are more in this area. Women are self employed by keeping flower stalls and selling food on road. the biggest issue that they are facing is with tarmac which is near to area. Many young people and other aged men are drinking even in the morning times. Surroundings must be more clean unless than they can't avoid certain diseases such a dengue, cholera, asthma. being the heart of the city there are many facilities near the area but all of them are corporate which these slum people cannot afford or approach. Most of the government facilities are reaching the people over there but the things are not happening in the issued g.o

M.K. Radha nagar is an slum colony located near Teynampet, Chennai, Tamilnadu. There was a bridge which was constructed in that particular area built over a waste dump age canal all the stones and construction materials were placed on the road when we went for the

first time but even after a week many waste materials were lying there around. Chennai Corporation must take many more initiatives regarding the neatness of that area. Many walls were stuck with posters which were talking about “sutham sugadhaaram”. The young population in this area is very less but the women population was very much high. Women were more in number and every one of them had right to vote and that was the reason for government initiating the programmes in this area on time. as said above women voters are high and still couldn't bring a change in banning the tarmac all around that area. There was also water scarcity in this area, people overcome that by saving water for many days in cans and drums. This area cannot be said as completely developed or changed slum. There were many old people and aged person who needed the help for medicines and other activities.

69. Awareness program on Cleanliness – 28-11-2018

Number of Participants - 48

A Helping Hand for Pristine Hospital Surroundings – 28-11-2018

The students of department of history Loyola college participated in cleaning program at saidapet primary health care center in Chennai, each and every one actively took part in removing all invasive plants and weeds which occupied lot of space and it became shelter for many insects, rats, lizards and some other reptiles which became major disturbing factor for the normal function of the hospital and to the patients.

As hospital staff were busy in taking care of the patients and giving medical aid to people, as in charge of outreach in saidapet area, Dr. E. Anand, professor department of service learning, Loyola College have organized a cleaning camp in primary health care center in

which students from various teams like “Teaching, Welfare Of Youth, Health And Sanitation, Women Empowerment, Caring Of Elders”. Took part actively, they cleared the all invasive plants and weeds. As students made hospital surroundings pristine by removing waste plants, hospital authorities felt happy.

**76. NilaVembu Juice to the people
Number of
participants : 18**

Students from the health and Sanitation team organized this program after knowing that there were many persons who were affected with different fevers. This was conducted on **10th December 2018**. The team decided to prepare the Nilavembu juice in the area itself. The juice was prepared with the help of a volunteer. Students went to each house and distributed juice to 160 persons. They also told the people that they could take this juice three times a week. People who took juice told that they could continue this after a week. Students also shared that the experience was totally new and the program performed was really gave a sense of satisfaction. **160 participants benefited through the event. There were 18 students for the program.**

78. Health Awareness for the Elders:

All the students in Elders team planned for an event on **13th December 2018**. The team members have already informed that there would be competition for the elders. There were 17 participants for the lucky corner. All the names of the cities were mentioned on the map. There was also a record player where the students played songs. All the elders who were sent out, felt little bad. They were informed that there would be different games like this in forth coming days. All the students were watchful and giving instructions to the participants. At last Mr.Kamalakannan got the first prize. He really felt happy to get the prize. He is unmarried and waiting for the old age pension. **17 participants benefited through the event. There were 17 students for the program.**

After the game. Mr.Melson appreciated the participants and gave some tips in view of protecting their health. He also advised that they should cover themselves since it is very cold.

79. Communicable Diseases
Number of participants : 17

Loyola College , Chennai
Department of Service Learning (Outreach)
Economics Department (2nd Year B.A. Economics Students)

Venue : Mullaima Nagar
Dates : 13th December 2018

The 2nd year B. A. Economic students created awareness about the communicable diseases which can affect the people during the colder months. The students were divided into different groups to reach out effectively to all the people residing in Mullaima Nagar. The different groups of students were all given a sheet containing the information about different communicable diseases. The information sheet also contained information related to strengthening the immune system so that their immune system could be strengthened to fight against infectious disease causing

organisms. The students spoke about the fact that malnutrition and vitamin deficiencies may increase susceptibility to infection and hence consuming fresh fruits and vegetables and certain other foods is necessary to strengthen the immune system. They told the people that foods such as Spinach, garlic, blueberries, fish, whole wheat, black rice, Onion, ginger, ginger tea, Pepper, squash, orange, lemon, amla, grape fruit, green tea, mushrooms,

Cauliflower and Eggs can strengthen the immune system. They also made them understand that Alcoholism, Obesity, Lack of exercise, Poor hygiene, Smoking, Stress, Worrying, Sun exposure and Excessive use of antibiotics could weaken the immune system. They also spoke about draining the Breeding places or using insecticides to eliminate vectors of disease and also about the risks associated with walking on infected water and hence they were advised to wash and dry their feet after walking on infected water. They people were advised to follow the recommendation given by WHO with regards to heating the water (water should be Roll boiled before it is fit for drinking) and food must be reheated fully after it is taken from the fridge and it should be Hot as certain organisms can thrive and grow on food which is neither too hot or cold.

The students also instructed the people about the symptoms of communicable diseases like Dengue, Malaria, T.B, swine flu, rat fever and other diseases. They difference in the symptoms associated with each of these diseases and told them to seek medical attention as soon as they had any of these symptoms. They also told them that if many people in an area were affected with a particular disease they could call

104- Marthuva Sevai Call centre number and a medical camp would be organized to stop the disease from spreading to others. They also spoke about how they can protect themselves from getting infected with different diseases.

80. Medical camp

Number of participants :12

Department of Service Learning (Outreach)
Commerce Department (2nd Year B.Com Students)

Venue : Nochi Nagar

Date : 14th December 2018

The students of Commerce Department and their faculty organised a medical camp for the residents of Nochi Nagar. The health camp was conducted through Help Age India which is an NGO which works for the Welfare and Upliftment of Senior Citizens. The camp was a general health camp and hence children from the age of fifteen to senior citizens attended the camp. The students had informed the people a few days in advance that the camp will be held on 14th December to ensure that enough number of people can attend the camp.

Majority of the people who had come for medical consultation had pain in the joints and knees, fever, Cough and cold. A considerable number of people had ailments like Diabetes, Hypertension, Respiratory disorders, Diarrhoea, Skin infections, The doctors gave free medicines, and on an average they spent 2 to 4 minutes with each patient and hence they diagnosed the person adequately before giving the medicines. Sixty five people attended the medical camp and the faculty and the students also educated the camp participants about the measures and the steps that everyone has to adopt to protect themselves from being infected with communicable and infectious diseases.

81. Awareness on dengue fever

A rally was conducted on 15th December 2018 in Indra Gandhi Nagar. All the team members carried placards in their hands. They also sloganeered the words which would enable them to prevent their health from hazards. Each door step was approached and they were explained of the symptoms and preventive measures. While the students talked about the papaya leaf, one of the house holders said that they are inaccessible to get it. It was promised that they would be given Nilavembu juice in forth coming days. This spread awareness and people felt that they are given valid inputs regarding the communicable diseases. 20 participants benefited through the event. There were 24 students for the event.

83. Awareness on Communicable diseases

Students belonging to Health and Sanitation gathered on the main road carrying charts and placards regarding communicable diseases. This awareness rally was conducted on **17th December 2018**. They were raising slogans and got the attraction from the community. They walked into the streets and explained the preventive measures for the communicable diseases. It was the first program for the team. All the team members got a new experience in their outreach. The charts they carried had many pictures and preventive measures. They also reached the door steps and explained the content of their program. People also clarified their doubts and got the message that was given by the students.

40 participants benefited through the event. There were 20 students for organizing this event,

84. Cancer awareness event
Number of Participants : 12

The women empowerment team of vis com department conducted a cancer awareness event at saidapet

Aim: To create awareness about various types of cancer, its causes and ways to avoid it.

Date: 17th December,2018

Time: 2.00 pm

Venue: Jothi ammal Nagar, Saidapet.

Organized by:Women empowerment team, Visual communication.

Organized for:Women of the mammal Nagar

Preparation:

Invitations were printed and given to the departments and to chief guests, snacks and beverages were brought for refreshment. Ms.Auxi Roy and Mr. Hari das were invited as chief guests.

Event:

The space near the tailoring unit was initially allotted for the sake of conducting the event, due to the difficulties faced by some women it was changed to the porch of a street. Chief guests delivered their speech regarding cancer awareness which was very well received by the audience. Beverages and snacks were delivered as refreshment after the meet.

Output:

As the chief guest delivered the speech about the causes of cancer, we received a good response from the audience as they could relate it to their lifestyle.

Lessons:

We learned that real-life scenarios are different from what was planned and that we should be physically present during the previous day in order to create brighter chances of getting people together. And also to improvise in order to get better results in difficult situations.

Challenges:

The primary challenge is to gather women around as it was the time in which they would leisure after all the work. The second one was the location as some of them felt difficult to climb upstairs.

86. Self-Employment Training program for the women
No of participants : 65

On 18 -12-2018 the students from the department of B.Com Corp.A organised simple chemicals self-employment training for the women in the Santhose Nager Housing Board. Nearly 25 women benefited. Mr.Pushpa and Mrs.Selvarani from Adaikalam Trust was the resource person of the program.

94. Awareness programme on Dengue
No of participants : 32

On 21st December 2018 the students of second year **French literature** conducted an awareness programme on Dengue by providing the people of Varatharajapuram locality with **Nilavembukashayam** and personally explaining to each family the causes , symptoms and prevention of dengue fever . This was organised by the health and sanitation group and conducted successfully under the guidance of prof.Priya . **20** students have supported and executed the event.

100. **Quiz and Public Speaking competitions for children**

**Loyola College , Chennai
Department of Service Learning (Outreach)
Economics Department (2nd Year B.A. Economics Students)
Number of participants : 46**

**Venue : Mullaima Nagar
Date : 23rd December 2018**

The second year UG Students of Economics Department conducted quiz and public speaking competitions for the children of Mullaima Nagar on 23rd December 2018. Since the competition was conducted a few days after the Independence Day, a few of the questions were related to our Freedom fighters and our National Leaders who had fought for our Independence. The children who answered correctly were given a bar of chocolate or a biscuit packet as a prize and hence all the children participated with eagerness to get the chocolate.

Then the children who gave the wrong answers were told the correct answers to the questions. The answers for the difficult and unanswered questions were given to the

children and these questions were repeated again and the children who gave the correct answers to these same questions were also given the chocolates. Most of the children who gave the wrong answers the first time made sure that they gave the correct answer the second time. Then the students conducted a public speaking competition for the children and all the children were encouraged to speak a few sentences in English or Tamil. The children made a few mistakes in English and the students and the Faculty corrected the mistakes made by the children and made them speak the same corrected sentences in English. As the children were encouraged to speak in Public, many of the children who were shy initially came forward to speak after seeing the other children. It was an eventful day for the students and the children who had participated in the competitions.

**The prohibition for usages of plastic bags programme at Dr.Thomas road
Number of participants :16**

The students organised the prohibition for usage of plastic bags programme on 3rd, January 2019. The students distributed hand bills which contains information about plastic usage. The students helped them by providing many recyclable bags to many elderly women. They visited many old housing boards with the elderly team. The main motive of this is to prohibit the usage of plastic bags . This was to create an awareness to the public about the plastic bags .

The blocks of old homes was filled with many old age people. The students spoke to many elderly people and they got to learn from many elderly people . They also came across the knowledge of not using plastics. They went to around fifty houses and provided them with cloth bags. Many blockages were created in the Covam River because of the usage of plastic bags. Its eventually polluting the environment which is harmful for human existence. All the elders found it very useful and safe to use cloth bags. A total of ten teams comprising of 10 members each took part in the event.

102. **Financial schemes for people belonging to different communities**
Number of participants : 16

Loyola College , Chennai
Department of Service Learning (Outreach)
Commerce Department (2nd Year B.Com Students)

Venue : Nambikkar Nagar
Date : 8th January 2019

The 2nd year B. A. Economic students created awareness about the Financial schemes given by the government for people belonging to different communities. The different groups of students were all given a sheet containing the information about the financial schemes available with the government for people belonging backward, most backward, denotified communities and people belonging to scheduled caste and scheduled tribes. The students gave awareness about the following schemes to the people in Mullaima Nagar. They are:

The corporation provides loans to individuals (Men) upto Rupees Two Lakhs at the yearly interest Rate of Six percent for doing small business. For women, the loan amount is up to Rupees One Lakh at an interest rate of Five Percent per year. For women who have registered self help groups the loan amount is Rs. 50,000 for every woman belonging to that self help group at the interest rate of Four percent per year. The corporation also provides schemes for men who have a registered Self help group and the loan amount is Rs. 50,000 for every man belonging to the Self help group at the interest rate of Five percent per year. For youth who are technically qualified and are having the intention of starting a business, they are granted loans upto Rupees Ten Lakhs at the interest rates between Six to Eight Percent. The Eligibility criteria for these loans are that the beneficiary should be belonging to Backward /Most Backward Classes/De-notified Community. The beneficiary should be between 18 and 60 years and the Annual Family income should not exceed more than Rupees 1,03,000. For the people belonging to SC/ST there is a subsidy of 30 percent or Rs. 25,000 which is less for loans upto Rs. 2 lakhs. For schemes related to Self Help groups, it is mandatory that the Self Help group should have been in existence for six months.

Many people were interested to know about the loan schemes. Some of the women belonging to self help groups were already getting loans at a higher interest rate and hence they wanted to get loans through the corporation at a lower interest rate. The students also warned the people that if they do not pay the installment amount for every month on time, the interest rates are likely to increase to a higher rate.

103. Financial schemes for people belonging to different communities

Number of participants : 17

**Loyola College , Chennai
Department of Service Learning (Outreach)
Economics Department (2nd Year B.A. Economics Students)**

The students also warned the people that if they do not pay the installment amount for every month on time, the interest rates are likely to increase to a higher rate.

104. Financial schemes for people belonging to different communities
Number of participants : 19

Loyola College , Chennai
Department of Service Learning (Outreach)
Kaushal Kendra Department (2nd Year B.Voc Digital
Journalism)

**Venue : Goyyathoppu,
Housing board
Dates : 9th
January 2019**

The 2nd year B. Voc. Digital Journalism students created awareness about the Financial schemes given by the government for people belonging to different communities. The different groups of students were all given a sheet containing the information about the financial schemes available with the government for people belonging backward, most backward, denotified communities and people belonging to scheduled caste and scheduled tribes. The students gave awareness about the following schemes to the people in Goyyathoppu. They are:

The Govt provides loans to individuals(Men) upto Rupess Two Lakhs at the yearly interest Rate of Six percent for doing small business. For women, the loan amount is upto Rupess One Lakh at an interest rate of Five Percent per year. For women who have registered self help groups the loan amount is Rs.

50,000 for every woman belonging to that self help group at the interest rate of Four percent per year. The Government also provides schemes for men who have a registered Self help group and the loan amount is Rs. 50,000 for every man belonging to the Self help group at the interest rate of Five percent per year. For youth who are technically qualified and are having the intention of starting a business, they are granted loans upto Rupees Ten Lakhs at the interest rates between Six to Eight Percent. The Eligibility criteria for these loans are that the beneficiary should be belonging to Backward /Most Backward Classes/De-notified Community. The beneficiary should be between 18 and 60 years and the Annual Family income should not exceed more than Rupees 1,03,000. For the people belonging to SC/ST there is a subsidy of 30 percent or Rs. 25,000 which is less for loans upto Rs. 2 lakhs. For schemes related to Self Help groups, it is mandatory that the Self Help group should have been in existence for six months.

Many people showed keen interest in knowing about the loan schemes. Many financial institutions have come up in recent years and are offering loans quite easily without asking for many documents, but the people felt that it is always better to get loans through govt. schemes as the rate of interest is lesser.

108. Physiotherapy camp
Number of participants : 15

This was organized by B.A.English in Indira Gandhi Nagar on 8th January 2019. There were 18 elders for the camp and this continued for 5 days. This was organized with the support rendered by Help age India. Medical officer from the organization brought the equipment and conducted this camp. All the elders who had different types of pain on the body came to the spot without missing the session. They also got relieved by the camp. 15 students from the Elders team have strained all their nerves for the success of the event.

**127. Competition for Children
Number of Participants:60**

Team members of Children team planned for a few competitions on 19th January 2019 at 11.00 A.M in Gandhi Nagar D block. There were 60 children for all the competitions. Before starting the event, one of the students gave a performance of handling 4 balls at a time. It was amazing to see and all the children were taken up by the performance. The competitions conducted were musical chair for boys and girls separately. There was also a dance performance by the children. All the winners were given prizes. **60 children benefited through this event.** 25 students organized this event.

129.Welfare schemes for women
Number of Participants: 16

Loyola College , Chennai
Department of Service Learning (Outreach)
Kaushal Kendra Department (2nd Year B.Voc Digital Journalism)

Venue : Transport Line, Goyyathoppu
Dates : 23rd January 2019

An awareness programme was conducted by the students of B.Voc Digital Journalism at Transport line, Goyyathoppu on 23rd January 2019 about the welfare schemes of the government. This programme mainly focuses on the welfare schemes provided by the government to the lower middle class women and men. Competitions for Children Number of Participants:35

Lovola College , Chennai
Department of Service Learning (Outreach)
2nd Year B. Voc Digital
Journalism Students)

Venue : Transport Line
Dates : 8th February 2019

The 2nd Year B. Voc digital Journalism students conducted competitions for children to encourage and develop their English and public speaking skills. The students conducted a few games initially so that the children who were shy and hesitant could be encouraged to participate in these events. The students then conducted singing competition for children below the age of seven and the older children were encouraged to participate in public speaking competition.

The children who participated in public speaking competitions were told to prepare and come for the competition and the children who were nervous during the competition were given a second chance. The students also encouraged the children to speak in English. They also motivated the children who spoke well to speak further and told them about the ways in which they can enhance their skills. All the children who participated in the event were given a tiffin box as a consolation prize.

138. Awareness about Alcoholism and Education
Number of Participants: 16
Department of Service Learning (Outreach)
Kaushal Kendra(2nd Year B.Voc Digital Journalism)

Venue : Nochi Nagar
Date : 23rd February 2019

The students of B.Voc Digital Journalism conducted a street play about the ill effects of Alcoholism and about the importance of Education. The students went around and spoke to the people to watch the skit thirty minutes before the program. They went around a second time and invited the people to come and watch the skit. As the people were slowly coming to watch the skit they entertained the people with a few songs and they also played a few songs and made the children dance. They performed the skit after a considerable number of people had come.

to watch the skit. The theme of the skit was about alcoholism and education and the students enacted the problem's women faced while dealing with their alcoholic husbands. The women were able to relate to the incidents portrayed in the skit. The other theme which was mentioned in the skit was about the importance of education. The²students had a feedback session after the skit and the people responded positively and we can conclude that the skit made the people understand about the value of education and the ill effects of alcoholism.

139. Training on preparing paper bag

Number of participants : 9

The students of second year BMM Animation gave training on how to make a paper bag on 26th February, 2019 at South Boag road slum. The purpose of the training was to motivate the women to use the paper bag instead of plastic bag. The plastic bag contains a lot of chemical, which could harm the health. It has harmed the Covam river and also created environmental issues. The women can spend some time at home and prepare the paper bag for daily use for buying the vegetables. More than 13 women took part in the training on preparing the paper bag.

142. Report on Nutrition Camp

Number of
Participants - 53

The students of B.Com Corporate B- section organized a program on child nutrition, at the Balwadi in Godha medu, saidapet on the 12th of March, 2019. The primary objective of the camp was to create awareness among the parents about nutrition deficiency and malnutrition. Parents, kids and the caretakers of the Balwadi were present for the entire program. The Chief Guests were **Dr. Arthi K. K., MBBS**, and her sister, **Dr, Kirthi K. K., MBBS** and they gave their valuable tips, suggestions, and information to parents and the caretakers of Balwadi. The students gave a gift as a small token of gratitude to the doctors. Thirty kids, their parents, and the 5 caretakers of the Balwadi were present during the program. Nearly 35 students of Loyola College participated in the program, and put their heart and soul to make the program a successful one. They purchased minor provisions, such as Junior Horlicks, Nutrition Biscuits, and trays, for every kid who was present during the program.

The Doctors' advice was very useful for the parents, and the caretakers. They gave emphasis on personal hygiene, avoiding processed foods, and natural health habits. They critically were against self
– treatment given by parents to their kids.

Photo: The children and their mothers. Avoiding processed foods

They told that it's the fault of the parents to make a child get used to eating processed foods. Chips' packets such as Lays contains nitrogen gas, which is extremely detrimental to the health of their children. Maggi contains mono – sodium glutamate, which is harmful for our digestive

system, and warned the parents not to give any such processed foods to their kids. Instead, they insisted them to give fresh fruits, juices, boiled vegetables, etc.

Natural health habits

Doctors told the parents to encourage their children to adopt hygienic practices and to make them healthy. They were totally against brutal beating of children and being harsh with them. Rather they advised their parents to be kind and cautious towards their kids.

Finally, the doctors distributed the minor provisions to the children, and also gave personal medical advice and guidance for each parent and child, and thereby the program ended pleasantly.

144. NILAVAMBU KASAYAM DISTRIBUTION

Number of Participants - 40

The Students belonging to the Department of Chemistry (B.Sc Second Year students) organized a program to explain to the people about the importance of Taking Nilavembu Kasayam, as it is efficient in fighting against disease causing bacteria and viruses, especially against disease causing organisms which cause Dengue and Malaria. The program was organized on 20-03-2019 in Gothamedu. The health and sanitation team members bought the Nilavembu Kasayam powder and gave it to the Amma Unavagam staffs who were working at Saidapet and they prepared the kasayam which was later distributed to the people. Once the Kasayam was prepared it was distributed to the people in the outreach intervention areas. (Children, women, men, elderly people and disabled).

When the Kasayam drink was distributed to the people one of the shop keepers came forward to help the students by giving a packet of sweets (small chocolate) as the Kasayam had a bitter taste. The Nilavembu Kasayam drink was distributed to atleast 400 people in the intervention areas and the people thanked the students for taking such an initiative.

145. Inauguration of Library in the slum

Number of participants : 17

Date : 29.03.2019

Students of Commerce and Sociology felt the need of opening a library in Bazaar Street. This idea was conceived after visiting the slum for a year. Prof. Kumanan motivated the students to bring story books, General Knowledge, Dictionary, Grammar books and Books about leaders. This drive was started in the month of March 2018. The opening ceremony was conducted in the month of May. Students have spent money and collected 400 books in total. This was a good initiative and the children in the slum welcomed it. Reading habit has been going down in the students' community. Reading will make the children leading the nation. Children were also encouraged that children who read many books will be awarded with prizes in the year end.

The chief Guest was the inspector of Chinthatiripet police station appreciated the initiatives of the college students and encouraged the children to read books every day. Prof kumanan appreciated the efforts of the students and encouraged them to continue good services. All the students shared that this was an unique experience in their outreach program. They also told that they would support this event in future for the welfare of children community.

B.Sc. Computer Science 'B' Section 2018-2019

Area: - Giriappa Road, Teynampet

At the beginning we performed a class survey to divide the class into groups to quickly help out at the slums effectively. The result was we came up with 5 groups, School teaching, Women Empowerment, Elders care, Youth empowerment and Health and Sanitation.

IMPACT ON STUDENTS: Most of the students regardless of background were completely shocked by the conditions of the slum and the plight of the people living there, during the early days. They came together under one banner called Loyola college Students and worked hard to help and connect with the people there. Most of them felt that they had changed at least a bit of their personality and they felt more appreciative of what they had, they felt more positive after helping out in the slums. Some were even willing to come on Non outreach days to just come to the slum area to help and connect with the people.

IMPACT ON SLUM DWELLERS: The people there were actually kind and would openly talk with our class students. After we helped around and spent time there, they started treating us in a friendlier manner. After receiving our help and counselling , a majority of the people we helped , followed our suggestions seriously and even asked the students to help them in setting stalls , cleaning areas, bring charts at school , getting some prescribed medicines for elderly ,etc. They completely changed and work harder to make their lives better. The people there have slowly developed a goal after our input and suggestions to become stronger in life so that they and their families can live happily in comfort. They truly felt grateful that Loyola College still volunteers to help them come up in life.

EVENTS HELD: We conducted a health and sanitation awareness rally in the slums to inform the people of dangers of diseases and unhealthy hygiene. We even opened up and helped at a medical camp to help those in need. We celebrated events like Christmas and Pongal at the slum area with the people there to spread positivity, hope, warmth and kindness. We even celebrated Children's Day at the School in the area and distributed sweets and showed educational videos to the Children.

CONCLUSION: OUTREACH was an incredible experience for all the students of the Computer Science Department. The students learned a lot about life outside our homes and we learned to unite to help those in need. Regardless of state or religion, we would come and help just because they are in need of it. This was ONE of the core values we learned in outreach. Outreach not only helped us bring out our kind side, it also allowed us bring out our potential be it in Leading or Managing, and it became a stage where all could show our talents for a good cause.

Department of B.Com Corporate –B- Section

Department of B.Com Corporate –B- Section students participated in common orientation at LS hall in the month of July. Students also orientated about outreach programme in the class room. Students understood the process of urbanization and urban social problems in slums from class orientation. After that, students took to the observation visit to the Chennai slum. In the slum they have known key leaders, community leaders, fans club leaders, youth group leader and self help group members, Corporation officials, health inspector, sanitary inspector, police station, head master of school and Non-governmental organization working in the slum. The students were divided into 5 teams based on the community interventions. The focused groups are school teaching team, youth development, women empowerment, caring of elders and differently abled and health and sanitation and clean environment. Students made resource mapping which have observed in the slum and identified the areas of concern for the implementation (Urban challenges). Students understood the importance of service Learning and serving the urban poor and needy. They also observed the structure of slum, types of slum and their socio-economic conditions, living conditions, educational status, health issues, environmental issues, lacing of toilet facilities, drinking water availabilities, lighting facilities, road facilities and drainage and the life condition of a family situation in the slum. Students were observed the challenges of deprived basic needs in slums.

Students established rapport with the community/stakeholders and partners in Development, Networking with NGOs-Civil Society Organizations-CBOs and Government Departments, Chennai Corporation, Tamil Nadu Slum Clearance Board, Social Defence, Taluk office, Social welfare board, nationalized banks, Women Development Corporation, Formation of teams, Tapping the government schemes and other departments.

Students identified groups in the community such as women, children, youth, elders and persons with disabilities. Equipped students community with the skills to address issues such as Education, health, Sanitation, Environment & livelihood issues for the slums.

Students planned community Program like event process (Identifying the issues, Need based analysis on specific issues, Invitation, Pamphlets, Inviting participants, Content designing, identifying & Selection of tools, venue arrangements, tapping the resources and etc). Budgeting and Communication / Liaoning (among learners, with community, support of experts / guests) and follow-ups - Implemented of the planned activity, reporting, reflection. Awareness / advocacy for an issue identified and build capacity to carry out that awareness and advocacy programme.

Department of service learning to engage with the people and to show the way to find better and to improve their standard of living and to know better about opportunities in this society through students community. To enhance the literacy of that area and to reduce the dropout ratio and to promote “right to education” for children which is one of the fundamental rights,

Students learned relationship with slum people, understood the activities of the NGOs and likeminded organization. Students have known the eligibility criteria for the government welfare schemes and understood the importance of team spirit. Students also acquired the networking skills from the service learning.

Health programmes.

Students conducted General and Eye medical camps. Awareness programme on Safe drinking water and Environmental degradation – Awareness programme on Communicable and non-communicable diseases, Distributed Nillavembu Hasayam and Awareness program on Malnutrition.

Celebrations

Pongal celebrations, Christmas celebrations and Elder’s day celebrations with outreach intervention area respective people.

Commemorations

Republic Day celebrations in the community, Republic Day celebrations in the school and Independence Day celebrations in the community and Independence Day celebrations in the community and children’s Day celebration in Balwadi.

General Programmes

Carrom board competition, Awareness programme on drug and abuse, Aids Awareness programme for youth. Awareness programme on Entrepreneurship training for the unemployed women & youth. Awareness program slum Social Evils.

Bsc., Physics-A (Shift-II)

The Department of Service Learning started the community service for the second year Physics-A belonging to shift-II with an orientation. Out of five units, the first unit which deals with defining the urban poor was explained in the orientation. Followed by the common orientation, classroom orientation was held during the beginning of the academic year in 2018. Followed by

the class room orientation was the observation to slum in Mangalapuram in Chetpet. After the field observation, introduction of key leaders, resource mapping, identifying the areas of concern, challenges in the urban spot were some of the questions raised to the students. The purpose was to make the student understand the importance of service learning, understand the life condition of slum dwellers. Establishing rapport with the community and program planning followed by implementation were the second and third unit. Acquiring the networking skills, follow up actions for the beneficiaries were the expected outcomes.

Application of Academic knowledge and Assesment with an Evaluation were the fourth and fifth units respectively.

Cleaned the "Little Sister's of The Poor -Home for the aged" The students had a great time with the people over there as they groomed the lawns, cleaned the Church , the fans , windows and the floors the rooms there. Time well spent , everyone gave their best. A **First-aid Demo on Cardiac arrest** was done by the class.

Team wise evaluation was held at the end of the Even semester.

Reflection through personal feedback was held with understanding the team spirit as one of their expected outcome.

B.A Economics-B (Shift-II)

The Department of Service Learning started the community service for the second year Physics-A belonging to shift-II with an orientation. Out of five units, the first unit which deals with defining the urban poor was explained in the orientation. Followed by the common orientation, classroom orientation was held during the beginning of the academic year in 2018. Followed by the class room orientation was the observation to slum in M.S. nagar, in Chetpet. After the field observation, introduction of key leaders, resource mapping, identifying the areas of concern, challenges in the urban spot were some of the questions raised to the students. The purpose was to make the student understand the importance of service learning, understand the life condition of slum dwellers.

Establishing rapport with the community and program planning followed by implementation were the second and third unit. Acquiring the networking skills, follow up actions for the beneficiaries were the expected outcomes. Application of Academic knowledge and Assessment with an Evaluation were the fourth and fifth units respectively.

The entire class was divided into four groups. Many had brought their own materials like gloves and bleaching powder to be spread. All the 12 streets and the one in school road in mangalpuram at Chetpet was covered. Our students went and talked to the people and to the vendors. They even spread bleaching powder in the possible mosquito breeding areas. There was an over all good response from the people of the area.

In order to spread awareness about the ill effects of plastic and to inculcate the habit of usage of cloth and paper bags, students distributed cloth bags to various local shops. The students distributed around 200 bags to 16 local shops and departmental stores. This was received well and appreciated by people and shop owners. Reflection through personal feedback was held.

B.Sc. Mathematics-B (Shift-II)

The Department of Service Learning started the community service for the second year Physics-A belonging to shift-II with an orientation. Out of five units, the first unit which deals with defining the urban poor was explained in the orientation. Followed by the common orientation, classroom orientation was held during the beginning of the academic year in 2018. Followed by the class room orientation was the observation to slum in T.B. chathiram-1, in Amanjikarai. After the field observation, introduction of key leaders, resource mapping, identifying the areas of concern, challenges in the urban spot were some of the questions raised to the students. The purpose was to make the student understand the importance of service learning, understand the life condition of slum dwellers. Establishing rapport with the community and program planning followed by implementation were the second and third unit. Acquiring the networking skills, follow up actions for the beneficiaries were the expected outcomes. Application of Academic knowledge and Assessment with an Evaluation were the fourth and fifth units respectively.

The second year mathematics' B'sec from shift-II, on behalf of the Health, sanitation and Environment team, in TB chathiram slum did an observation. The team noticed that there is no sufficient garbage bin in 1st street of T.P.Chatram. As a followup the team was able to tap sources and bought a garbage bin. In order to bring community involvement the team identified some women members, handed the bin.

The chief guest for the Independence day commemoration was Mr M.K.Mohan, MLA of

Annanagar.

Team wise evaluation was held at the end of the Even semester. Reflection through personal feedback was held with understanding the team spirit as one of their expected outcome.

Connecting the subject with the slum dwellers, indenting the skills to public, with the expected outcome being capacity building to the beneficiaries with a followup action and a student learning.

B.com-E (Shift-II)

The Department of Service Learning started the community service for the second year Physics-A belonging to shift-II with an orientation. Out of five units, the first unit which deals with defining the urban poor was explained in the orientation. Followed by the common orientation, classroom orientation was held during the beginning of the academic year in 2018. Followed by the class room orientation was the observation to slum in T.B. chathiram-2, in Amanjikai. After the field observation, introduction of key leaders, resource mapping, identifying the areas of concern, challenges in the urban spot were some of the questions raised to the students. The purpose was to make the student understand the importance of service learning, understand the life condition of slum dwellers. Establishing rapport with the community and program planning followed by implementation were the second and third unit. Acquiring the networking skills, follow up actions for the beneficiaries were the expected outcomes. Application of Academic knowledge and Assesment with an Evaluation were the fourth and fifth units respectively.

As part of a follow up of swachbharath , the class did a mass cleaning in the area of T.P.CHATRAM. the class was divided into different groups and cleaned several streets of T.P.CHATRAM. As per the SWACHH BHARAT vision the entire student team collected many plastics and some wastes.

The government banned the usage of plastic and plastic related products across various states. This came into effect in Tamil Nadu on January 2019. So, to spread awareness about the ill effects of plastic and to inculcate the habit of usage of cloth and paper bags, the Women Empowerment team along with Health team of belonging to B.Com 'E' section shift II, distributed cloth bags to various local shops.

Team wise evaluation was held at the end of the Even semester. Reflection through personal feedback was held with understanding the team spirit as one of their expected outcome. Connecting the subject with the slum dwellers, incidenting the skills to public, with the expected outcome being capacity building to the beneficiaries with a followup action and a student learning.
